INACTIVE INGREDIENTS: Microcrystalline cellulose, croscarmellose sodium, crospovidone, magnesium stearate (vegetable source), silicon dioxide, dextran, dicalcium phosphate, protease, modified food starch, sucrose, dl-alpha tocopherol, sodium ascorbate, ethylcellulose, resin, coating (polydextrose, hypermellose, titanium dioxide, D&C red no. 30 aluminum lake, FD&C blue no. 2 aluminum lake, polyethylene glycol, hydroxypropyl cellulose, purified water).

INDICATIONS AND USAGE: PreferaOB® is a prescription multivitamin/multimineral nutritional supplement indicated for use in improving the nutritional status of women throughout pregnancy and in the postnatal period for both lactating and non-lactating mothers. PreferaOB® is also beneficial in improving the nutritional status of women prior to conception.

CONTRAINDICATIONS: This product is contraindicated in patients with a known hypersensitivity to any of the ingredients.

WARNING: Accidental overdose of iron-containing products is a leading cause of fatal poisoning in children under 6. **Keep this product out of reach of children.** In case of accidental overdose, call a doctor or poison control center immediately.

PRECAUTIONS: Folic acid when administered as a single agent in doses above 0.1mg daily may obscure pernicious anemia in that hematological remission can occur while neurological manifestations remain progressive. Pregnant women and nursing mothers should avoid supplemental doses of vitamin E higher than RDA amounts. While prescribing this nutritional supplement for pregnant women, nursing mothers, or for women prior to conception, their medical condition and other drugs, herbs, and/or supplements consumption should be considered.

ADVERSE REACTIONS: Allergic sensitization has been reported following both oral and parenteral administration of folic acid.

DOSAGE AND ADMINISTRATION: One tablet daily with or without food, or as prescribed by a licensed health care provider with prescribing authority.

HOW SUPPLIED: PreferaOB® is supplied in a child-resistant bottle of 90 tablets (NDC 68220-084-90) and as a Professional Sample (NDC 68220-084-25).

KEEP OUT OF REACH OF CHILDREN.

STORAGE: Store at controlled room temperature 20°-25°C (68°-77°F). Excursions permitted to 15°-30°C (59°-86°F). [See current USP] Dispense in a tight, light-resistant container to protect from light and moisture.
